

SPORTS TOURNAMENT AND HIV/AIDS AWARENESS PROGRAMME

A SEA OF CANDLES AGAINST HIV AND POVERTY

It's 3rd day of the action week. Our today's activities focus on HIV and Aids. Aids is one of the major problems of South Africa.

Our workshops in Seshego's police station try to make people aware of this problem and explain to them

how to cope with this disease. We really want to have a sustainable impact on our region.

We also want to call attention to the people suffering from this disease.

In the evening each of us will light a candle for those persons.
Everybody is invited to join us. Maybe a sea of lights will attract worldwide attention.
