

Day 2

Austria

MISSION CONTROL CENTRE

OPENING OF THE ACTION WEEK

Monday afternoon we enjoyed the opening presentation of the Global Village Project here in Kapfenberg, Austria. Kapfenberg is the city, where the Mission Control Centre (MCC) is situated, coordinating all the action projects. Our guests got to know the complex technical system which is behind the MCC, introduced by Katharina Stierschneider, Maria Almer and Thomas Lang.

Apart from the opening speeches of Dr. Werner Greis (head of the GVP), Dr. Tomaschitz (managing director, University of Applied Sciences Joanneum) Sneha from India had prepared a wonderful, touching speech which stressed the importance of the action projects for young people.
