## A TOWN FOR ALL

### GETTING STARTED

This year, the topic of the Austrian United Games of Nations is “*A Town For All*”.

Here you see some participants, getting to know the topic and the other young people, joining the project. The people, wearing a green T-shirt, are some of the organizers, who planned and prepared the United Games in Mürzzuschlag.

People are waiting for picking up a key.

On this picture, you can see a Serbian boy, called Milutin, picking up a key. And as you probably see, it was a lot of fun...

**The arrival of the Serbian delegation in Mürzzuschlag.** They were welcomed by the delegations who arrived earlier e.g. from India and saw their accommodation for the first time. The participants got to know each other and looked forward to the coming week.
