

Day 1

Czech Republic

DESNA VALLEY

WE'VE GOT THEM ALL !!!

We went through the first day of global village project without troubles except the last delegation of Slovenians who finally arrived just forty minutes ago, because of their wrong train change. They took a little bit longer way through Slovensko. At last, we have all expeditions in here. Groups from ten to thirteen of friendly foreigners became our hommies in just one day and we successfully began our cooperation.

We had enough time for welcoming because they did not arrive together. This evening was spent in the hall by playing games with one important purpose of meeting everyone. All of us had creative chance to introduce and meet the others by as interesting way as possible. We are all sure that we enjoyed this day as we were able to and we have no reason to doubt that it would change during following week.
