

Day 2

Czech Republic

DESNA VALLEY

MEET OLOMOUC:

We are giving report about the second day of global village project:

We went through it successfully and with pleasure. This morning was started by some games for improving our knowledge about us all but by as entertaining form as possible.

One of the most important points of the whole week is painting the children playground just next to the first building of the main venue.

First of all we would like to tell you something about the history:

The playground was made by a group of young people who were fed up with those useless playgrounds and pitches made from concrete where the children could injure so easily... It was just given to them few trees and they were to do whatever they were able to.

But finally they did it and their names are written in the front of this playground.

We were just continuing in that work because it is becoming older and older during time. The second paint is planned for tomorrow.

The afternoon was full by very known and famous activity called FOOD EXCHANGE...

And finally in the evening we were splitted into several groups and sent to the city because of the activity called: MEET OLOMOUC.
