

Day 5

**Slovenia**

## **IZOLA SUB MISSION CONTROL CENTRE**

Ahoy !!!

Yesterday they had a day full of action - as nearly every day. But this day was special because they had a boat trip to Piran. Although there was quite a lot of wind they enjoyed the sun and of course the food. First they had sardines and in the afternoon after visiting Piran they had calamari's which, as they say, were incredible good. In the meantime the participants celebrated and danced to some music.

In Piran they visited some historical places like the old city wall or the house in Venetian style.

In the evening they went to the beach of San Simon to have dinner and to make party again, but unfortunately the weather was not with them so they had to return to Riviera. But this was no reason for the participants to stop the party and so they celebrated to the morning hours...
