

## **PLANTING A TREE - YOU GIVE LIFE TO THE WORLD**

**What a surprise!  
A 1000 more trees have been given to us!**

Yesterday in the morning we fetched our trees from a nearby tree nursery situated about 15 kilometers from town and carried them to our storehouse. It was really a great feeling to smell the scent of the trees and to be out in the wild. Then we started carefully to plant the trees which gave us a feeling of satisfaction.

In the afternoon we were really surprised when we got a call from the municipal council of our neighboring district Baños del Inca. She informed us that in a meeting with her fellow councils they decided to donate 1000 trees to our project. In other words, we now have 3006 trees to plant which is really just great!

District of Baños del Inca
