

PLANTING A TREE - YOU GIVE LIFE TO THE WORLD

A sweet end

This morning while starting the truck full of trees, a strange sensation of contrary feelings came upon us. On the one side we know, we brought a smile to many children who were so happy to receive a little tree which they can now take care of and watch grow. On the other side we are sad that this is the last day we can bring this happiness to young people.

Andy in the streets of Cajamarca

But our nostalgic thoughts didn't stop our good spirits. We rushed motivated to the school "San Augustin" where we met many kids of all ages, from kindergarten up to secondary school. They hurried out of their classrooms to welcome us. But the reception didn't last long because we all went to the schools' courtyard. We decided to let the children pick their favorite trees themselves. When we left the school at the end, we felt full of satisfaction.

On the way back we stopped for a refreshing drink. A couple of trees were still left in the truck. Our astonishment was huge, when people passing by recognized us from the local news reports. They came closer and asked us for a small tree as a gift. This request filled us with joy and we gave out the trees to all the persons who desired one. For us, this was a very motivating incident which we will always remember.

We especially want to thank Dr. Werner Greis so much for letting us take part in this wonderful project. It unites so many countries with different languages, cultures and races but which have a common goal: **CREATE A BETTER WORLD.**

We also want to thank all the participants at our desk at the MCC in Kapfenberg and all the volunteers who were involved in this great project.

We hope to be able to participate in other events too. You can always count on us!

Hasta la vista....

Andy and Toni, UG Peru

We also would like to thank you for your commitment and the great work you did! It was a pleasure cooperating with you.

Muchas gracias por la cooperación.
Ha sido un placer trabajando con vosotros!

Iris y Sybille
