How to use Teamspeak

- Visit the website www.globalvillageproject.net

The screenshot shows the website's navigation menu. At the top, it says "Action Week: 28th May - 4th June 2006". Below that, the text "MISSION CONTROL CENTER KAPFENBERG - AUSTRIA" is displayed. The main navigation bar includes links for "home", "info", "countries", "projects", "press center", "communication", "contact", and "help". A secondary bar shows "you are here: home » communication » global village project » chat". A red circle highlights the "chat" link, which has a dropdown menu with options: "teamspeak", "forum", and "e-mail to mcc". The page title is "Global Village Project - Teamspeak" and the main text begins with "Teamspeak is an online telephone possibility. First of all you need to download 'teamspeak'".

How to use Teamspeak

- Choose the Teamspeak channel you'd like to enter and fill in your nickname.
- After activating the button "join", the Teamspeak application will launch automatically.

Global Village Project - Teamspeak Channels

Teamspeak is an online telephone possibility. First of all you need to download "teamspeak" onto your computer. You can do that from this site. ([Download Teamspeak](#))
Once you have installed the software you just need to click on the country with which you want to speak. Please note that in order to use "teamspeak" you also need a headset. You can also speak simultaneously with more than one person in more than one country.
